Dear Mr. Schnoor:

Subject: Approval to Use RTK South End Waste Rock Placement Activities
Ground Water Discharge Permit # UGW350010

The Division of Water Quality (DWQ) received the As-Built Construction Certification Report for the South End Waste Rock Placement Activities on April 2, 2015. DWQ completed periodic inspections during construction and completed a final inspection on December 15, 2015. After completing a review of the documentation there was some confusion with the submittal and on May 5, 2015 there was a meeting with Zeb Kenyon of KUC to resolve that confusion.

Based on the final inspection and a review of the As-Built Construction Certification Report, DWQ hereby grants the approval to operate the South End Waste Rock Placement Activities.

If you have any questions, please contact me at (801) 536-4353 or wwcampbell@utah.gov.

Sincerely,

Woodrow W. Campbell, P.E.
Environmental Engineer
